OBJECTIVE

I am an experienced Odoo Developer with expertise in both the technical and functional aspects of Odoo. Throughout my career, I have worked as an Odoo Developer, helping businesses streamline their operations by delivering customized and cost-effective solutions. My passion lies in **implementing the best practices** that not only **reduce operational costs** but also drive business growth, enabling companies to achieve their full potential.

PROFESSIONAL EXPERIENCE

Odoo Techno Functional Consultant | Jan 2025 – Present

Theta Direct LLC | Bangalore, India

- Interact with clients to understand their business processes and gather functional requirements. Translate those into functional specifications for Odoo customization.
- Analyze client workflows and suggest how Odoo can streamline their operations. You will need to understand various Odoo modules (Sales, Accounting, Inventory, HR, etc.) and how they apply to specific industries.
- Configure Odoo modules (like Sales, Purchase, Accounting, Inventory, etc.) according to the client's needs. This can involve setting up users, permissions, and workflow automation.

Senior Odoo Developer | Feb 2024– November 2024(~0.75 year)

BizzAppDev Systems Private Limited | Ahmedabad, India

- Supervise the development process, development support, code reviews and team management.
- Collaborate closely with project managers to **gather business requirements**, **provide timelines**, and manage project deliveries.
- Diagnose and resolve complex technical issues within Odoo, including performance bottlenecks, server errors, and functional bugs.
- Provide **functional and technical support to clients**, helping them understand Odoo capabilities and providing tailored recommendations.

Odoo Developer | Sept 2021– Feb 2024(~2.5 years)

BizzAppDev Systems Private Limited | Ahmedabad, India

- Experienced in creating custom modules, extending core modules, and implementing business logic.
- Developed and managed **RESTful and XML-RPC API integrations** with third-party applications like **Amazon, Shopify, Magento, Ebay** etc..
- Proficiency in **supply chain, e-commerce, and point of sale** related modules.

Software Developer Trainee | Oct 2020– Mar 2021(~0.5 year)

Mindarray Systems Private Limited(Motadata) | Ahmedabad, India

- Retrieve data from **AWS** to the local system to later display the information in UI.
- Get hands on working experience in **API tools & technologies, AWS Services**, and Golang.

PROJECTS

Xero to Odoo Connector:

- This project aims to integrate two popular software platforms—Xero (cloud-based accounting software) and Odoo. The connector will enable seamless data synchronization between both systems, automating workflows and improving the overall efficiency of financial operations. This integration ensures that data flows smoothly from Xero into Odoo, or vice versa, without the need for manual data entry.

Amazon to Odoo Connector:

- This project aims to create an integration between Amazon Seller Central (Amazon's marketplace for third-party sellers) and Odoo. The connector will facilitate seamless data synchronization between the two platforms, automating key processes such as order management, inventory updates, product synchronization, and financial reporting. By integrating Amazon with Odoo, businesses can streamline their e-commerce operations, ensure real-time stock and order visibility.

EDUCATION

Hasmukh Goswami College Of Engineering | Vehlal, Gandhinagar, India

Bachelor of Engineering in Information Technology(2016–2020)

CGPA: 8.27/10
